

Past Projects

Project 000 | Jul 2020

Waste Study in Selong Belanak

Bumi Solah collaborated with Mitra Samya to conduct a waste study analysis in Selong Belanak - a touristic destination in South Lombok. The aim was to identify, quantify, and analyze waste streams generated by households and businesses.

Project 001 | Jan 2021

Publication on sustainable tourism practices

With the support of GIZ, we published a publication titled "Best Practices in Developing Environmentally and Socially Responsible Hospitality Businesses in Lombok" with the aim to provide wider access to tourism stakeholders into sustainable tourism practices.

Project 002 | Jun 2021

Capacity Development for Waste Business & Management Systems

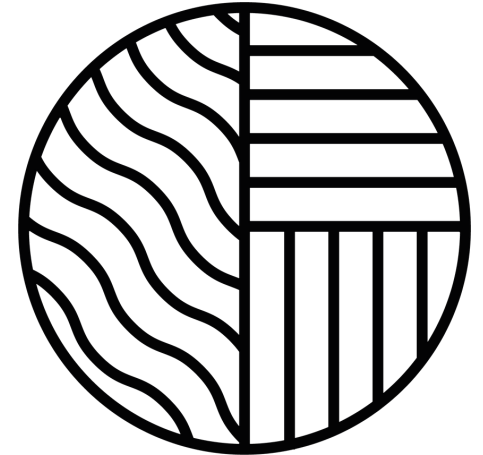

Bumi Solah was hired by GIZ as the consultant to conduct an introductory waste management training program for stakeholders in Desa Sengkol and Desa Kuta in South Lombok.

About Bumi Solah

Environmental consulting company focused on waste management in Lombok.

Our name "Bumi Solah" meaning "Good Earth" is a combination of the Indonesian and Sasak Language - the natives of Lombok Island.

We believe that a Good Earth is a clean and sustainable one. One where we can coexist in balance with the world we live in.
